Dear parents and children,

I just wanted to send my thoughts and best wishes you and your families at this difficult time and hope you all keep as well as possible.

If anyone would like dance lessons for their children to help keep them occupied whilst they are at home with the schools being closed.

We have good success with sessions via facetime video or whatsapp video with some school children this past week.

If you are interested (or any other ideas!) please can you reply to my email address or text me and when we know how many people are interested will get a timetable together. Please state;
